

Audio Signaling and Light Emitting Type Voltage Detector

Model HST-35V~550V

This product is for AC current, and it indicates the presence of charge in circuits with an electronic buzzer that is easy to hear and a high-luminance light emitting diode. It is **light-weight** and **easy to handle**.

Rating and Specifications

Model		HST-35V	HST-138V	HST-550V
Working voltage range		AC 6~35 kV	AC 66~138 kV	AC 210~550 kV
Indication	Sound	Intermittent sound 70dB or more		
	Light	Verifiable at 8,000Lx of brightness(Red LED)		
Frequency		50/60Hz		
Water proof		Equivalent to IPX4		
Operating temperature range		-10°C ~ +50°C		
Battery		LR44 (1.5V) × 2pcs.		
Accessory		Bag for housing
